DR. CHING FUN—A CARD—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three Brazilian American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief. Respectfully,
JOHN HENTON, of Kentucky, U S

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. It is pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine

The Female's Best Friend

For all debilitating disorders peculiar to the sex and to every contingency pertains to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all kinds
Dropsy	Lumbago	Weakness, from whatever cause
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, badlegs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure it heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act upon well upon the constitution and so purify the blood that those disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complain which frequently creeps upon us by slight as queamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if the ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	stiff Joints,	Sore Throats,
Bunions	elephantiasis,	Skin Disease
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,

THE BRITISH COLONIST.

Sunday Morning, Oct. 17, 1869.

Speed the Plough.

Of all the sciences and professions there is perhaps none of greater importance in a new country than that of agriculture. Agriculture is properly a science, although it is not always conducted upon scientific principles. In this Colony agriculture has not made that progress which the highly favorable conditions presented would lead one to expect. Comparatively few have been found willing to devote themselves to it, and of those who have fewer still appear to have succeeded in the higher sense of the word. Thus one constantly meets the complaint that "farming does not pay." Does not pay? There must be something radically wrong when such a statement is made in a fertile, highly favored land like this. One reason for this anomalous condition may be found in the fact that of those who have chosen this, the most certain road to independence, a large percentage is composed of persons who have suddenly become agriculturists—who are totally unacquainted with the rudiments of the science. Now, it is obvious that such persons labor under great disadvantage for some time at least. It would be a great absurdity for a young man who had spent some few years of his life in training for a boot-maker, suddenly taking to surveying, with the hope of immediate success. No less absurd would it be to find men springing from all the trades under heaven, flushed with a little wealth, or imbued with a desire to try their fortunes at farming, suddenly plunging into the abyss of agriculture, and all meet with immediate success. Far be it from us to discourage persons wholly unacquainted with the science of agriculture turning their attention to it in this country; for it is our firm conviction that a careful and industrious person, possessed of an average stock of pluck and plod will more surely make his way to comfortable independence in this pursuit than in any other. Such persons must not, however, make haste to get rich at farming, or they are almost certain to fail. We have said that agriculture is a science, and that very many of those who have engaged in it in this Colony are not scientific persons, and hence the cases of failure, and the frequent cry that "it won't pay." These facts form excellent arguments in favor of the establishment of Farmer's Clubs, Agricultural Societies, annual Exhibitions, Ploughing-matches, &c., the tendency of all which is to afford inexperienced persons opportunities for improvement. Such associations and competitions are recognized as essential to any considerable degree of success in the oldest countries, where agriculture has been brought to the highest state of perfection. How much more necessary must they be in a new country like this, where many of our agriculturists are complete novices in the art, and where even the most experienced are met by new conditions of climate and soil? We are led to believe that many of our farmers, especially those upon this Island, sadly neglect that rotation of crops, by which alone the best of soil can maintain its vigor and productiveness. In not a few instances, we are told, this good old rule is totally neglected. Our farmers may rest assured that this rule cannot be neglected with impunity. An outraged soil will be revenged. Then, again, there exists great negligence with regard to seed. To sow imperfect seed is a practice nearly allied to madness or folly. More cannot be had from a thing than it possesses; and if we sow bad seed, or seed deficient in the true seminal qualities, we ought, in the very nature of things, to expect a crop defective either in quality, quantity, or both. The celebrated axiom in cattle-breeding, that "like produces like," so strikingly illustrated among the watering-troughs of Padanaram, and fully established by all subsequent experience, may, no doubt, be equally depended upon in the vegetable creation. Slovenliness in tillage is another serious fault which, we fear, prevails to an alarming extent. By neglecting rotation of crops and a thorough and systematic tillage, many a farmer is overtaken by a crop of pernicious weeds which it will occupy half his time to keep under, or which will drive him away altogether. The most effectual remedy for all these faults is to be attained through the means we have already suggested—that of drawing the farmers together, at least once a year, in friendly rivalry, to be witnesses of each other's success or failure, as the case may be. A very successful agricultural exhibition has just been held; and we venture to expect smooth sailing in that department, in future. It affords us very great satisfaction to observe that the Saanich farmers have, in the most spirited and practical way, inaugurated ploughing-matches. The prizes are much too light, it is true; but we are not without hope that some of those gentlemen in the city who appreciate the importance of promoting a more scientific system of agriculture, and who could well spare a few dollars for that purpose, will step forward and render the prize list more befitting the importance of the occasion. We hope to see a ploughing-match in connection with next year's exhibition; but it would be well if, in addition to that, each district should follow the noble example set by the Saanich farmers and hold local ploughing-matches; as these would form valuable auxiliaries to the general or colonial one. We hope soon to see the Society in a position to offer a good prize for the best managed farm, as a means of promoting proper attention to farming in all its details. Indeed, it might be highly proper for the Government to place a distinct sum annually at the disposal of the Society for this purpose. It is earnestly to be hoped that both government and people will take a deeper interest than they have hitherto done in promoting in every legitimate way the agricultural prosperity of the country.

The British Columbian Investment and Loan Society.

[Concluded.]

I have now given an explanation of the objects and system of the Society and of some of the benefits it will confer, I would not, however, have it be supposed that I consider I have exhausted the subject, but I believe I have said sufficient to satisfy every person on reflection that the institution presents every prospect of being a great service to the public and for the purpose of imparting to any hesitating mind that confidence to which I believe the Society is entitled, I would add that by the Investment and Loan Society Ordinance, once at least in every year, the assets of the Society are required to be audited and returns made to the Colonial Secretary in a prescribed form certified by the declarations of the Auditor and Treasurer. That no divisions of the profits shall be made until the table on which they shall have been arrived at shall have been sanctioned by such officer as the Governor shall appoint, and that the directors who shall sanction the declaration of a dividend when the Society is known by them to be insolvent will be liable for the debts of the Society to the extent of the aggregate amount of the dividend so declared; and further, that not only are the directors restricted from borrowing money from the Society, but they and the Secretary and Treasurer are forbidden to receive any bribe, commissions or gratuity for procuring any advance to be made by the Society, and the offenders are made liable to heavy penalties.

Messrs. E. Grancini, F. Garesche, J. Lowe, E. Marvin, T. L. Stahlschmidt, I. W. Powell, T. Pritchard, J. R. Stewart, C. W. R. Thomson and J. Trimble have been appointed the first Directors of the Society, and the prospectus will be advertised in a few days.

In the present depressed state of the Colony the Society will not "go ahead" so fast as it would have done a few years since; nevertheless I confidently assert that if the public will give it their support, of which I entertain no doubt, all that is required to ensure success is caution, vigilance, and routine, and a determination on the part of the Directors to keep the working expenses of the Society as low as possible during its infancy.

Destruction of Trees.

EDITOR BRITISH COLONIST.—Time and again I have urged immediate action on the part of the authorities to stop the wholesale felling of trees and saplings in the neighborhood of James' Bay, but without avail. The forests are being fast decimated by the axeman and the trees converted into cordwood by those it is presumed who have no legal or equitable title whatever so to do; yet the authorities, without bestirring themselves in the matter, allow so great a wrong to continue to the manifest injury of the residents of Victoria, and especially to the residents of James' Bay, because they are particularly exposed to the keen southerly winds in Winter, and further that the pretty summer retreat amongst the belt of trees, is daily disappearing.

Mr. Grant Duff, Under-Secretary for India, recently referred to a question of the first importance to many other colonies as well as India; "Forests," he says, "are always looked upon as inexhaustible till they begin to be exhausted."

If any one will only take a walk in the vicinity of Medana's Grove they will see that Mr. Duff's opinion will shortly be realized, unless prompt action is taken without delay by those who have the power.

Cricket Match.

The match between eleven of the Collegiate School and eleven of the Victoria Junior Club came off yesterday and resulted in an easy victory for the Victorians, who scored in one innings more than the Collegiates got in both. Several of the young fellows showed much proficiency with the bat and ball. The highest score of the day [47] was made by Fry:

THE COWICHAN HARVEST HOME—October 13th, the day appointed for the Cowichan Harvest Thanksgiving proved to be one of those glorious autumnal days forming a portion of that 'Indian summer' with which the unequalled climate of this Colony is singularly blest. At an early hour the settlers from the remote and outlying portions of the district began to gather round the Church and churchyard of Cowichan to offer by an especial act their thanks to Almighty God for the blessing of the year in the results of Harvest. The service commenced at 10:30 a. m. and before its termination the little log church was crowded to overflowing. The singing was hearty and well rendered, especially the hymns for the occasion. The church was decorated with the various kinds of grain, hops and evergreens with such skill as to make even the plain and homely lines of a log building look pretty for the occasion. After service, all present were cordially invited by the Ven. Archdeacon to lunch. The tables were erected on the barn floor and upwards of a hundred persons sat down. After lunch several local church matters were brought before the meeting by the Archdeacon and it was voted that the Offertory for the day [$23] as well as that of last year [still in hand] should be devoted to obtaining a suitable font. It was also resolved that steps should be taken at once to clear up the churchyard and lay it out in burial lots, and a subscription to this effect was opened on the spot and some portion of the amount necessary was promised. As soon as this business was concluded, and while some were wandering about the grounds in quiet enjoyment, and others engaged in athletic sports, the tables were quickly and quietly removed and the unexpected and attractive sounds of music brought all together again, to enter into and thoroughly to enjoy a homely and honest country dance upon the barn floor. Four years have elapsed since these annual celebrations were first inaugurated, each succeeding year with increasing numbers and a greater manifestation of kindly and fraternal feeling. During this period the young of the settlement have quickly developed from childhood to maturity, and it appeared a subject of agreeable surprise to many to discover in their midst many fair and blooming young faces—wearers of which was already able to take his their part in the battle of life. The setting sun warned all to separate for their distant homes, a summons obeyed with much reluctance. Before separating a vote of thanks to the Archdeacon and Mrs Reece was proposed by Mr Skinner in an appropriate speech and was vociferously responded to with prolonged cheering.

FROM COMOX, NANAIMO AND COWICHAN.—The steamer Sir James Douglas arrived from Comox, Nanaimo and other ports at 4½ o'clock yesterday afternoon, bringing about 30 passengers and a large freight of young cattle, hogs, chickens and geese, besides a quantity of produce. Among the passengers were Rev Mr. Somerville, Mr A Muoro, Mr Sayward and Mrs Williams. The news from Comox is unimportant. At Nanaimo the Shooting Star was full with coal and expected to sail to-day for San Francisco. From Cowichan the news is quite interesting. Armstrong, who was arrested for shooting at Boterell, has been released on bonds. The gentlemen who went up for the exploration of Cowichan Lake have not yet returned. A surveying party have been encamped during the week on Munro's prairie. The Rev Mr Somerville preached on Salt Spring Island on Tuesday evening, and on Thursday at the Kokesailah, where the settlers have organized as a branch of the Presbyterian Church. At the John Bull Hotel the apple trees were in blossom. At the Messrs Pimbury's farm extensive drainage operations have been completed. This land, which was formerly a swamp, is now a beautiful farm covered with various grains grasses, fall wheat, turnips and potatoes; an extensive orchard has been planted out, and in the garden are to be found the filbert, lilac, hawthorn, tansy, rosemary, sage and other old English plants. A "bee" was recently held at Williams' farm for the erection of a large barn, which was completed in one day. The Douglas was loaded with Cowichan produce. The settlement is a scene of steady industry all the way from Chemainus to Harris' wharf, and the settlers are thriving and in good hope.

READING.—Mr Geoffrey Norreys will read several choice selections to-morrow evening at the Mechanics' Literary Institute. Gentlemen acquainted with Mr Norreys assure us of his ability as a reader and amateur actor. We anticipate a pleasant intellectual treat.

THE Gussie Telfair sails at daylight today for Portland. She will carry a few passengers and a good freight.

The Contest for the Snider Rifle and Ammunition.

The shooting by the Victoria Rifle Volunteers for the Snider rifle and 100 rounds of ammunition, presented by Tunstall & Co., came off at the Butts yesterday. The ranges were 300, 600 and 800 yards. The best shooting was by Private Hargreaves, who scored 45. Col. Sergt. Peele and Band Sergt. Soar tied at 43. At the 300 range, Ensign Turner scored the highest, 21; at the 600 range, Corporal Allsop made the best, 19; and at the 800 range Col. Sergt. Peele made 16, leading the next best, Band Sergt. Soar, 4 points. The day was murky and not at all favorable for the exercise. Following is the score:

INTERNATIONAL RIFLE MATCH.—It is stated that Lord Elcho, a Scotch noblemen, whose name stands prominently connected with home rifle practice, is turning his attention to bringing about a rifle-match between British and American riflemen. An American paper, referring to the proposed match, suggests that the test should be made in shooting at live game instead of an iron target, and claims victory for the American riflemen on that score. Very likely our American contemporary is right as to results; but we quite differ with him as to the fairness of the proposed test. If Lord Elcho should be successful in arranging a match which we take to be highly probable, the best be in accordance with the recognized rules of rifle practice; and we cannot but suspect that a conviction that his countrymen would stand little chance of beating the Britishers at the target has had something to do with our contemporary's assertion that, "An international match, to prove anything, should commence at Hoboken and be finished in the Rocky Mountains." There can be little doubt that British riflemen are far ahead of those of America, in so far as regular match shooting is concerned, and the latter could not do better than court a contest which could scarcely fail to result in much benefit to their country in promoting greater proficiency in the use of the rifle. The chief importance of such a contest would, to our thinking, consist in the tendency of these international trials of skill to bring about a better acquaintance, and consequently better feeling between two countries who should never strive with each other unless in friendly rivalry.

CHINESE IMMIGRATION.—Rev. Horatio Stebbens took occasion lately before the San Francisco Chamber of Commerce to let the people of California know what they have to expect if they continue to oppose the immigration of the Chinese. He said: "We front on one of the most remarkable civilizations of the earth—the cradle of mankind. That civilization has stood there sullen as the pyramids—but now it begins to be stirred by the emotions of the common mind. The disorders in California are the fruits of a vulgar prejudice against the people who came here simply to make a living in the marts of the world. Humboldt foretold that, in the future ages of this planet, the centre of the world would be within five hundred miles of where we stand. Now, the populations of the East are not coming here to make this the common centre; but the population of the Occident are coming here—and I charge you, all ye little-minded, small-souled politicians—I charge you, stand out of the way of this immigration, or you are dead men. I cannot tell what you are, or what your religious faith may be, but get up, all ye village moralists who think the Kingdom of God enhanced by breaking tobacco pipes."

THE work of denuding Ogden Point of its timber goes on rapidly and never a hand of those who say the public are the owners is raised to prevent it. If the Colony owns the land the Government is paid to conserve the public right to it and all that it contains. If the land be the property of private individuals who legally acquired it under the Island preemption proclamation, let the deeds be issued and the holders encouraged to improve it. As the matter stands now, the land is being rapidly cleared of a valuable and beautiful grove of forest trees for private use and gain, and in the end—provided possession of the tract be regained by the Government—the value of the property will be greatly depreciated. A good letter from "Druid" on this subject appears in this issue.

THE LATE GUNBOAT FORWARD.—This vessel is being placed in condition for the passage to San Francisco. Capt Sutton, of California, will command the steamer. There are many surmises made as to the use to which the Forward will be put by her new owners and the particular service she is destined to adorn in the future; but we believe the opinion expressed at the time of the sale—that she is destined to play an important part in naval operations on the Pacific Coast of Mexico—will be found to be correct.

THE ALLEGED HIGHWAYMAN.—Henry Mentzer, who is charged with having robbed a man from Steilacoom of a gold watch, some weeks since, was brought before Mr. Pemberton yesterday and remanded for eight days. Mentzer was caught by officers Kennedy and McMillan shortly after he landed from a canoe. Hard stories are told of Mentzer, and if one-half of them are true he must be a tough character.

FROM THE MAINLAND.—The steamer Enterprise returned from New Westminster at 8 o'clock last evening, with Hon Henry Holdbrook as passenger. News has reached New Westminster of the death of Mr A Kingscote, who was accidentally shot while hunting in New Zealand....The pre-emption and Indian reserves at Burrard Inlet have been surveyed and marked out.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Eastern States.

WASHINGTON, Oct 14—The gunboat Frolic arrived at Wilmington on Monday. Her commander notified Commodore Higgins, of the Hornet, not to leave port till his case had been decided; he had instructions from the President to prevent his departure.

CHICAGO, Oct 14—Admiral Farragut commenced sinking at five o'clock last evening and continued to sink slowly until midnight when it was believed he would not survive the night. About one o'clock, however, he began to rally and is much better this morning, though his recovery is still extremely doubtful.

COLUMBUS, Oct. 14.—The Republicans claim, and the Democrats concede, ten thousand majority for Hayes, and three Republican majority in the House and one in the Senate.

LOUISVILLE, Oct 14—Business is generally suspended. A hundred thousand persons are occupying every point of observation to witness the grand trade procession which is universally pronounced to exceed any similar thing ever attempted in this country. It is fully 9 miles long and has been 3 hours in passing a given point.

PHILADELPHIA, Oct 14—A table of majorities published in the press shows Geary's majority to be 2342. A table prepared by the State Central Committee estimates the majority to be 4109. The *Age* says the contest is close and a few hundred votes may decide it.

During the session of the Return Judges to-day the Sheriff attempted to serve a writ of injunction against counting the votes, but was resisted, his official position not being announced, he having gained admission to the room under pretense of being a Return Judge. He came back with a posse, broke open the doors and served the writ and ordered the arrest of sundry persons charged with resisting him. A reporter of the associated press was beaten in a shocking manner by the police and locked up, but was soon after released and discharged.

Miscellaneous Items.

Mrs Fred Douglas, Jr., is described as a beautiful brunette, whom nine persons out ten would pronounce a white woman.

A laborer in an ice-house down East was killed by a large lump of ice falling on his head. Verdict of the jury—Died of hard drink.

Table napkins made of paper are the latest German invention. The Japanese use a peculiar kind of tissue paper for pocket-handkerchiefs.

Debow's *Review* asks if it would not be better for the South to get 'a Saxon army of artisans, instead of an Asiatic horde of field hands.'

Young Chinese fops in New York have abandoned queues and silk frocks, and attire themselves in dress coats, stunning neckties and patent leathers.

It is mentioned as very creditable in the French Emperor that when he communicates with the Corps Legislatiff he addresses them as Messieurs, not men.

A French paper thinks that lovers sitting together on a hot summer evening may be happy in the thought that their blood is commingled in the same mosquito.

It being hinted to a barrister who was wearying the court with a long and dull argument, that he ought to bring it to a close, he angrily replied, 'I will speak as long as I please!' 'You have spoken longer than you please, already,' replied his antagonist.

A New York clock company last week dispatched a Pacific railroad car loaded with clocks through to San Francisco, whence they go by steamer to China. These are the first clocks ever sent across the continent.

Reminiscence of Byron's Boon Companion, Captain Medwin.

(Communication to the Portland, Maine, Advertiser.)

The moral atmosphere in which Byron's entire life was spent was for the most part very far from pure. A few years ago the writer of this article, then living in a German university town, accidentally became acquainted with the Captain Medwin who was authority for the 'Dear Duck' commencement of Lady Byron's letter—at that time an old man, decrepit with age and enfeebled by disease and melancholy withal because of the recent death of an elderly lady with whom he had lived in those relations of Platonic intimacy hallowed by the mutual attachment of Cowper and Mrs Unwin. A casual acquaintance with this unhappy man was sufficient to dissipate the last vestige of that foolhardy admiration which every boyhood conceives for the wild life led by Byron and his fellow *roues* at Newstead. Captain Medwin had come of a good family—being a cousin of Shelley—was a fine scholar, having made the acquaintance of the classic writers in their own language and on what is left of their soil, and in his day had enjoyed some reputation as a man of letters. But as I knew him he could have been only the wreck of what he had been once. His face bore unmistakeable evidence of a mind ill at ease. He was crabbed, fretful, misanthropic, and I fancied jealous of the well-earned reputation of the men who rule in the English realm of letters at the present time. He ridiculed Tennyson and spoke disapprovingly of Bulwer; but complimented Longfellow and declared that he would rather have written Poe's 'Raven' than any other poem of the present century. I know not whether he still survives, but if he does not, death has done for him a more friendly office than was in the power of friend or relative; it has soothed a spirit to which a life misspent had made rest impossible here.

That freshness and beauty of complexion, so much to be desired, cannot be retained unless the female system is in a healthy condition, and free from obstructions. For those diseases peculiar to the female sex, whether in young or old, married or single, at the dawn of womanhood, or the turn of life, no other remedy produces so beneficial results as Dr. Walker's Vegetable Vinegar Bitters. Its purifying effects add tone to the stomach, and invigorate the whole system.

The Little Waifs—A Young Lady finds one of them on her Doorstep.

(From the Louisville Courier-Journal, Sept. 20th)

The foundling mania continues. The doorsteps are still inhabited. The inexplicable still come, and babies are abundant.

Fortune still frowns on the afflicted, and the way of the transgressor is hard. Neither do angels in swaddling clothes find welcome, but are cast to the precarious providence of strangers,

About the sixteenth foundling within the last week turned up on the door step of a palatial residence on First street yesterday morning. This one, however, met with a warm reception, as the story will show. A young lady of the house, about seventeen years of age, came down, as was her wont, early in the morning, and going to the door, found, to her utter astonishment, a baby—a sweet, a darling, a charming, a smiling, a bewitching, a blessed baby. She was delighted, and her first impulse was to grasp it in her arms and kiss it. This she did, and then, with an uproar that was wonderful, roused the whole house to show them her prize. 'Just what I've been praying for these many years,' exclaimed she, in a rapture of joy. 'And I've got it, and I'm going to keep it, too, and I'm going to buy it dresses, and toys, and cakes, and candies, and everything good; and it's going to be my baby, it is—my own, good, darling baby, and I'm going to name it after pa; and when it grows up it'll call him grandpa, it will.' So she went on, and was in ecstacies over her newfound treasure.

True and prompt to her word, immediately after breakfast she dressed and then ordered the carriage and, coming down in town, she bought the baby a number of fine dresses and materials to make more. Silks, laces, trimmings, embroideries, fringes, flowers, feathers—the carriage was full of such when she returned home. She expressed the greatest dread that some one might come and claim the baby. This was one misgiving which turned out to be no mere fancy, for shortly after her arrival home and when she had just finished bedecking the baby in the gaudiest of its new and gaudy wardrobe, the door-bell rang.

'There, now, I told you so! There's somebody after my baby—I know it.' Putting it away snugly and enjoining the rest of the family to guard it at all hazards, she went to the door herself

'Good morning, madam.'

'Good morning. Was there not a baby left here this morning?'

'Yes, madam, but you can't get it. It's my baby, and I am going to hold on to it, too.'

'If you please, it is my sister's child, and I wish to have it and raise it properly.'

'You can't get it, I tell you, and that's all of it.'

The door was slammed in the aunt's face, and there the matter ended, as is supposed—for on relating the story to her husband, the baby's good aunt was commanded to 'let the brat alone.'

LONDON HOUSE.—'Rich and rare' are the dry and millinery goods now being opened at this well known establishment. The goods were selected from the choicest manufactures of Great Britain and France, and came by last express. The stock is now one of the most extensive and best assorted on the coast. The firm have advices from their London partners that in order to send out the latest fashions for winter they are having made especially for them novelties in furs, mantles and millinery, very choice seal jackets, etc. These goods will arrive next steamer. Their winter stock of Alexander gloves are also being made to their order in Paris.

HOLLOWAY'S PILLS.—The changes of temperature and weather frequently upset persons who are most cautious of their health, and most particular in their diet. These corrective, purifying, and gentle aperient Pills are the best remedy for all defective actions of the digestive organs; they augment the appetite, strengthen the stomach, correct biliousness, and carry off all that is noxious, from the system. Holloway's Pills are composed of rare balsams, unmixed with baser matter, and on that account are peculiarly well adapted for the young, delicate, and aged. As this peerless medicine has gained fame in the past, so will it preserve it in the future by its renovating and invigorating qualities, and its incapability of doing harm. 11

SAANICH AGRICULTURAL ASSOCIATION PLOUGHING MATCH!

THE COMMITTEE HAVE DECIDED that the competition shall take place on TUESDAY, 24 NOVEMBER, at Mr Wm Thomason's, South Saanich Ploughing to commence at 9 o'clock, a. m., precisely.

The following Prizes are established, having reference to the sum at present disposable;

1st Class—Adults—Five Prizes, respectively of 8, 7, 6, 5 and 4 dollars each.

2nd Class—Youths under 18 years of age—Three Prizes respectively of 4, 3½ and 2½ dollars each.

Any additional money received as subscriptions or donations previous to the distribution of the prizes will be awarded, either in addition to the above amounts in the same relative proportion, or additional prizes will be made, at the discretion of the Committee.

The conditions of the match, omitting minor details, will be as follows: The quantity of land to be ploughed by each competitor will be one-half acre, upon grass sod; the standard for comparison in judging a furrow of 6 inches in depth by nine in breadth; lands to be numbered and awarded by lot; each competitor to lay off his own land; to be ploughed with one span of horses or single yoke of oxen, without aid in driving; the ploughing to be completed within six hours from the time of commencement.

Open to all competitors free of entrance fee or other charge. Notices of intention to compete to be handed to Mr William Thompson, South Saanich, if possible, not later than Friday, the 29th of October.

Further subscriptions or donations in aid of the fund will be thankfully received by Mr Robert Brown, Treasurer for the occasion, North Saanich, or at the COLONIST OFFICE.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

DOCTOR LERAS'

(Doctor of Medicine.)

LIQUID PHOSPHATE OF IRON.

The newest and most esteemed medicine in cases of: **Chlorosis, Pains in the Stomach, Difficult Digestion, Dismenorrhea, Anæmea, General Debility and Poorness of Blood.**

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility whatsever. It is the preservative of health par excellence, in all warm and relaxing climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficia in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the **Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR. BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints or the Liver & Loins

NERVOUS HEADACHE NEURALGIA, DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of Cholera as it is a preventive and a cure in cases of Diarrhœa

GRIMAULT & Co.'s Syrup of Ferruginous Peruvian Bark.

Chemists to H. R. H. Prince Napoleon, 43 rue Richelieu, Paris.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect limpidity and agreeable taste, this Syrup is taken with pleasure and suits the most delicate stomachs

It is par excellence the FERRUGINOUS TONIC which should be administered to ladies of delicate constitution, young persons backward in attaining the age of puberty, and to children of a weak constitution: and is particularly employed in the treatment of Cholorosis, Anæmia, Pale Complexion, Gastrics, Gastralgæ, Whites, Leucorrhœa, Debility, Want of Appetite, Poverty of Blood, &c.

No more Dyspepsia, Vomiting during Pregnancy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE.

Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powders or Pills. It is the digestive medicine par excellence and is at the same time a most agreeable table liqueur.

Messrs. Grimault beg to call the attention of the faculty and the public in general to the fact that real pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porci.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Whereall other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricord, and found greatly superior to anu thentic known mineral remedies and Copaiba and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Prepared by Lugeaso, Chemist, at Bordeaux, possesses the Balsamic and Resinous Properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, etc.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

THE PERFECTION OF PREPARED COCOA.

MARAVILLA COCOA.

SOLE PROPRIETORS,

TAYLOR BROTHERS,

LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any prepar'n to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."

See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Pure, soluble, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all grocers, of whom also may be had Taylor Brothers' Original HOMŒOPATHIC COCOA and SOLUBLE CHOCOLATE.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensible to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London, as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.

Medical.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
